Discover a World of Opportunity Open Day 2019 Program

There is so much to discover at Trinity College, so to help you and your family explore our schools, their doors will be open at different times to allow guests to move between sites. Here is a snapshot of events around the College you won't want to miss.

Family and friends are welcome to come and explore classrooms, watch displays, be entertained by our music faculty, partake in experiments, meet teachers and specialist coaches, roam the grounds, visit our farm, taste our wine, discover Trinity history, watch our athletes, enjoy artwork, purchase wonderful cuisines and much, much, more.

Parents are encouraged to explore the future for their children. Visit a classroom or facility that your child might use when they are older.

Open Day is designed to discover the opportunities that Trinity has to offer in a relaxed format. No formal lessons are undertaken and students take centre stage to show you their School. Of course you can meet our teachers across all year levels and subject disciplines.

This program is a taste of Trinity College and offers some tips about your visit.
