

TRINITY COLLEGE

Defence School Mentor Team

Information for Families

The Defence School Mentor (DSM) Program is designed to provide practical assistance to Defence families and support the social and emotional wellbeing of Defence students.

Trinity College has two Defence School Mentors who work across four Trinity College Reception to Year 10 schools to assist Defence students and their families with changing schools, integrating into the school community and providing support during parental absences.

The roles are funded by the Defence Member and Family Support (DMFS) Branch of the Department of Defence. Defence School Mentors work to minimise the impact of mobility on education and build the capability of the school in supporting Defence students and their families.

Mentors provide support to the children of Defence families through on-site, direct and flexible assistance to students, parents, teachers and other support services. This may include:

- assisting new children and their families to integrate into the school and local community;
- monitoring the social and emotional wellbeing of Defence students;
- assisting students to develop self-confidence, self-reliance and resilience;
- referring students to services, or school and community programs that meet their needs;
- enhancing awareness and appreciation of the unique Defence lifestyle in schools and communities; and
- providing support to children during times of parental absence.

The Defence School Mentors at Trinity College work part-time. Lauren Gilbert supports students (Reception to Year 10) from Defence Force families at Trinity College North and Trinity College South. Emma Repacholi supports students (Reception to Year 10) from Defence Force families at Trinity College Blakeview and Trinity College Gawler River.
